THE
SEVENTY-NINTH REPORT
OF THE
COMMISSIONERS OF NATIONAL EDUCATION
IN IRELAND,
SCHOOL YEAR, 1912-13.

TO
HIS EXCELLENCY JOHN CAMPBELL GORDON,
EARL OF ABERDEEN, K.T., G.C.M.G.,
LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

May it please Your Excellency,

We, the Commissioners of National Education in Ireland, submit to Your Excellency this our Seventy-ninth Report. In this report the statistics of attendance, religious denominations, etc., in the schools, are for the year ended the 31st December, 1912, the financial statements are for the year ended the 31st March, 1913, and the general information is brought up to the 30th June, 1913.

During the year ended 31st December, 1912, the attendance ^{School} _{attendance} of pupils at the National Schools shows a slight falling-off, which we believe may be in great part ascribed to the more unfavourable weather conditions that prevailed, as compared with the year 1911. The centesimal proportion of the average attendance to the average number of pupils on the roll was 71.3, a figure slightly less than that reached in the previous year, which was the highest yet recorded. We believe this fluctuation to be merely of a temporary character, and that an advance may be expected in the current annual period.

Building grants

Since our last report was presented to Your Excellency, much activity in the provision of new school buildings has been apparent in all parts of the country. It is to be remembered, however, that our power to make grants for new buildings is at present limited by the Treasury to the more urgent cases, and that there are improvements in the buildings, such as the provision of play-sheds and the partition of schoolrooms at present too large to suit the approved system of school organisation, in respect of which we are precluded, through want of funds, from granting aid. Managers continue to bring to our notice fresh cases in which better buildings are urgently required, and we trust that our renewed applications to the Treasury for power to assist in providing funds for these cases may meet with success. There is increasing evidence of the satisfaction afforded by the revised plans on which all our new schoolhouses have been erected for the past five years, and which we believe may be favourably compared with rural school buildings in any part of Europe. It is gratifying, moreover, to find increased attention given to neatness and taste in the keeping of schoolhouses by the managers and teachers generally throughout the country; at the same time, much remains to be done in this respect.

Unex-
pended
balances
of Annual
Votes.

We have been accused in the press of returning each year to the Treasury money from our vote, which it is alleged we might have paid to the teachers, or used for other purposes in connexion with our system. It is needless to assure your Excellency that this accusation has no substance in it. We return no money to the Treasury which we can possibly and legitimately pay. In fact, the so-called unexpended balances at the close of the financial years have never been received or receivable by us, under the rules approved by the Treasury. But as the accusation has been made publicly, we think it right to submit the following statement in regard to our financial procedure.

Our estimate of the amount to be provided by the Parliamentary Vote for primary education in Ireland for any financial year must be submitted to the Treasury not less than four months before that year commences. When preparing this estimate it is impossible to predict with exactness the amount required under each head within a year which will not terminate until sixteen months after the date at which the calculations have to be made. Weather conditions, epidemic sickness and other causes which cannot be foreseen lead to considerable variation in the attendance of pupils, and so affect the amount of salary and grants payable to the teachers in any particular year.

Our estimates are drawn up as carefully as possible by the light of such information as is at our disposal derived from past experience, averages, and so forth, and care is taken to make provision which we consider to be adequate to meet all the expenditure which is likely to arise under the various heads of expenditure sanctioned by the Treasury. An under estimate of the amount required leads to this inconvenience, that the Government and the Treasury object to, and resist supplemental votes, and it is only by this means that additional money can be

obtained, and when obtained it is not available until the last month of the financial year. Much inconvenience and dissatisfaction would arise if payments due to teachers for service rendered before the first of January had to be deferred until a supplemental vote could be obtained and drawn upon in the month of March.

The course hitherto followed by us results in a small margin of voted money over actual expenditure, and this margin of safety ensures the payment to the teachers and others under the sanctioned regulations, and claims can be discharged when they fall due.

Our actual payments for the eight years ended with 1911-'12 fell short of the amount voted by Parliament under strictly regulated heads of expenditure by considerably less than one per cent. of the sum voted, being £86,351 out of a total of £12,066,893.

The sum voted by Parliament for any year is not paid over to us until it is required, nor can we expend it at our discretion. It represents the maximum amount upon which we are entitled to draw, so far as may be required to meet all claims which arise for payment within that year under heads of expenditure previously sanctioned by the Treasury. If the Vote based on our original estimate is found to be inadequate to meet such claims, the additional sum needed may be provided by a supplemental vote, but if the vote at first provided proves to be more than sufficient (as for purposes of safety and to avoid supplemental estimates is desirable) for all the payments within the year under the sanctioned rules, the surplus is retained by the Exchequer. This procedure is not special to the vote administered by us, but is common to all Civil Service Departments.

It is not permissible for us to utilize our Parliamentary Vote by applying any portion of it to pay for new services which we desire to have established, or under sub-heads other than those for which it has been voted, but solely under certain regulated heads of expenditure. Any payments by us for any other purposes, however laudable and desirable in themselves, would be disallowed by the Comptroller and Auditor-General.

In our last report we made mention of the fact that a sum of £7,500 had been placed at our disposal for the purpose of making grants in aid of the provision of medical and dental inspection and treatment of school children, in respect of the financial year ended 31st March, 1913. In view of the condition attached, viz., that the grant was to depend on an equal sum being raised locally to defray the cost of the proposed schemes, we were not sanguine regarding the amount of progress that could be attained in the circumstances. Some local interest, was, however, aroused, and during the financial year 1912-13 we actually expended a sum of £263 2s. 6d., while for the current financial year we have sanctioned schemes of dental treatment which will entail an estimated expenditure of over £1,300. The

grant sanctioned by the Treasury for this year is limited to £5,000, so that much of it will remain unexpended unless more local interest is evinced in the matter.

Of the £1,300, estimated expenditure for 1913-14, nearly £800 is appropriated in aid of the scheme promoted by the Women's National Health Association. This scheme provides for the establishment of five clinics in Dublin and its vicinity, and of one each in Cork, Antrim, and Naas. Local branches of the same organisation have also initiated schemes in Howth, Kingstown and Terenure. Among the first schemes to be sanctioned should be mentioned that of the Children's Aid Society—a non-sectarian body in Belfast—which, in addition to other philanthropic undertakings, has started a dental clinic for school children in that city. This scheme is remarkable, inasmuch as the services of the dentists and doctors are given free, their value being treated as a local contribution earning an equivalent amount from the Parliamentary grant. The clinic opened on 15th April last, and between that date and the 30th June, 278 children received treatment, involving 1,157 operations.

Viscount Gough, who will always deserve honourable mention as the pioneer of dental school inspection in Ireland, continued in the past year his clinic at the Loughcutra Schools, Gort, County Galway, which now includes medical, in addition to dental, inspection and school work. He has, moreover, been instrumental in promoting a dental clinic in connection with two large National schools in the City of Galway.

The Bangor (County Down) Urban District Council is responsible for a scheme embracing all the schools in the urban district, and has in so doing set a praiseworthy example to similar bodies throughout Ireland. It is anticipated that under this scheme 500 pupils will be treated in the first year, at a total cost of 4s. per head.

The remaining schemes sanctioned up to the present are in connection with individual schools, or groups of schools, in some fifteen different localities. The more noteworthy are the clinics instituted at Bushmills by a committee organised by the Provost of Trinity College, and at Sion Mills, County Tyrone, in connection with the schools attached to the well-known linen mills belonging to Messrs. Herdman. In all, some thirty clinics have been established in the past six months. It need hardly be said that an immense deal remains to be done before the problem of the care of the teeth of the rising generation can be considered to be adequately solved.

Renewed
proposals
to
Treasury

We have not failed to put forward applications to the Treasury in the past year, as in former years, for power to make grants in aid of various proposals for the amelioration of Irish elementary education. It is needless now to enumerate these proposals,

with which we have so often importuned Your Excellency. The Treasury reply on the present occasion was no more favourable than in the past. Our request for grants for higher primary, or continuation, schools was again refused. We forbear comment on the present occasion, but we cannot refrain from making allusion to a Ministerial Statement on Scottish Education in the House of Commons on the 4th August last, in which it was stated that the proportion of children in Scotland who took a real course of higher instruction was one to six or seven. No precise figures for Ireland are available, but it will be no immoderate estimate to say that the proportion cannot be higher than one to thirty. Moreover, at a time when the President of the English Board of Education, in his memorable speech to the House on 22nd July last, thus adumbrates the deliberate policy of His Majesty's Government :—"The principle of our legislation will be the obligatory provision of intermediate education for all who desire it, in order to bring it within the reach of all classes"—it is surprising to find all proposals to improve the provision of higher instruction for National school-children in Ireland laid aside and ignored. In this country the "broken arches" are to remain in ruins : *sic visum superis.*

In one respect, however, in the matter of encouraging instruction in school gardening, we have received a welcome concession ^{school} ^{Gardens.} from the Treasury. We are now in a position to sanction grants for the purposes of (1) paying the expenses of teachers while attending courses in gardening under the Department of Agriculture and Technical Instruction ; (2) aiding the provision of equipment, tools, seeds and manures to school gardens ; and (3) giving fees to teachers and awarding prizes for the best kept gardens. We hope for the earnest co-operation of managers and teachers in giving effect to our desire for the encouragement of horticultural work in connection with rural schools.

During the year ended 31st March, 1913, we awarded promotion to higher grades to 266 teachers who had successfully complied with the prescribed conditions. Of these teachers, 26 were promoted to the first section of the first grade, 109 to the second section of the first grade, and the remainder, 131, to the second grade. Owing to the want of vacancies in the first grade for masters, a number of these teachers have not yet received the increase of salary due on promotion ; according as vacancies occur in the grade, the increase of salary is awarded to these teachers. At the present time (20th August, 1913) 14 teachers (masters) are awaiting vacancies in the first section, and 94 in the second section, respectively, of the first grade. This is exclusive of teachers promoted to the first grade since 1st April, 1913.

Besides the cases of ordinary promotion we have also considered the cases of certain principal teachers who have shown exceptional ability in the discharge of their duties during a long period. After a careful examination of each case we have granted special

promotion to 69 principal teachers, of whom 5 were placed in the first section of the first grade, 10 in the second section of the first grade and 54 in the second grade.

In view of their long service and exceptional efficiency, we have awarded special promotion to the second grade to 89 assistant teachers, such promotion taking effect from 1st April, 1913. Our powers in respect to the promotion of assistant teachers are strictly limited to cases which present features of an exceptional character, such as the maintenance of a very high standard of efficiency over a prolonged period of service.

Incre-
ments of
salary to
teachers.

Triennial increments of good service salary were awarded to 2,094 teachers in the year ended 31st March, 1913.

We now proceed to give Your Excellency detailed information under various heads.

School-houses and Teachers' Residences.

1. On the 31st December, 1912, there were 8,255 schools in operation, made up as follows :—

Ordinary Schools,	7,667
Convent	"	345
Monastery	"	57
Workhouse	"	114
Model	"	70
Fishery School,	1
Hospital School,	1*
Total,	8,255

This shows a decrease of 34 in the number of schools in operation when compared with the number on the 31st December, 1911. The decrease is in considerable measure due to the amalgamation of adjoining boys' and girls' schools, or of small schools in the same locality.

2. Of these schools, 3,455 were vested schools, the remainder were non-vested.

Vested
Schools.

The vested schools include (a) those vested in the Commissioners, and (b) those vested in trustees, under deeds to which the Commissioners are a party, for the purpose of being maintained as National Schools.

* Under special authority from the Lords of His Majesty's Treasury, instruction is given each day, by a qualified national school teacher, to children (patients) in the wards of the Incorporated Orthopaedic Hospital of Ireland, Dublin.

The vested schools were distributed according to provinces as follows:—

Provinces.	Number of Vested Schools.		
	Vested in the Commissioners.	Vested in Trustees.	Total.
Ulster, ...	277	611	888
Munster, ...	302	886	1,188
Leinster, ...	62	464	526
Connacht, ...	95	808	903
Total, ...	736	2,719	3,455

The non-vested schools include school-houses erected from Non-
funds locally provided, or, in a few instances, from loans avail-
able under the Act of 1884, 47 & 48 Vic., cap. 22, and schools
formerly vested, the leases of which have expired.

3. The erection and improvement of vested school premises
are carried out under the direction of the Board of Public Works.

On the 1st of April, 1912, the amount for which that Board Building
was liable in respect of grants already made by us and notified Grants,
to them was £66,279 17s. 11d. In addition to this sum, we had
made grants amounting to £41,488 17s. 2d., which had not been
ready for notification to the Board of Works. The total liabilities,
therefore, on that date amounted to £107,768 15s. 1d.

4. The following statement shows the condition of the grants
and liabilities on 1st April, 1913:—

	£ s. d.	£ s. d.
Unexpended Grants on 1st April, 1912, ...	107,768 15 1	
Grants to build and improve Schoolhouses, made in 1912-13, ...	57,771 10 3	165,540 5 4
Deduct—		
(a) Grants cancelled, not having been utilized	1,310 9 10	
(b) Deductions owing to omitted or defective works, ...	945 11 11	
(c) Instalments paid by Board of Works on account during year ended 31st March, 1913, ...	36,268 6 7	88,524 8 4
Total Liabilities on 1st April, 1913, ...		£127,015 17 0

The grants made by us during the year ended 31st March, 1913, were apportioned as follows:—

Erection of New Vested School-houses.			Enlargement of Existing Vested School-houses.			Other improvements to existing Vested School-houses.		TOTAL GRANTS.
No. of School-houses.	No. of Pupils for which the New School-houses will afford Accommodation.	Amount of Grant.	No. of School-houses.	No. of Pupils for which Additional Accommodation will be provided.	Amount of Grant.	No. of School-houses.	Amount of Grant.	
45	7,000	£ 7,586 19 0 ^d	21	658	£ 3,917 0 4	320	£ 3,307 10 11	£ 7,771 11 1

In 27 cases of the erection of new school-houses grants amounting in the aggregate to £2,825 0s. 0d. in excess of the normal grants were made, as the schools are to be built in needy and congested districts. Similarly in 55 improvement cases grants in excess of the normal were sanctioned to the amount of £982 11s. 3d.

Loans for improvement of schools.

5. We approved of applications to the Board of Works for loans, to the amount of £1,343 10s. 0d. for enlarging and otherwise improving existing non-vested school-houses.

Loans for Residences.

We also approved of loans in 41 cases to provide teachers' residences, and in 9 cases to improve existing residences. The total amount of the loans approved was £10,928 6s. 8d.

Since the year 1875, when the National School Teachers' Residences (Ireland) Act came into force, 1,917 applications for loans, and 82 applications for grants, have been approved by us. In a large percentage of cases, however, the Teachers are as yet unprovided with suitable residences.

Teachers' Residences.

On the 31st December, 1912, according to returns received from the managers, teachers' residences were connected with 2,271 ordinary schools. In 896 of these cases the residence was entirely free to the teacher; in the remaining cases of occupancy the teachers paid rent or taxes, or both. The estimated annual value of free residences was £6,718 1s. 10d.

* This amount includes supplemental grants towards the building of vested school-houses in 36 cases which were sanctioned in previous years.

6. According to the Returns furnished by the school managers the local expenditure on the schools was as follows:—

Nature of Expenditure	Amount.	Local aid towards building and repairing school-houses, school prises, &c.		
		£	s.	d.
New Buildings, additions to schoolhouse, and repairs,	58,896 1 3			
Repayment of loans for the erection or improvement of the schoolhouse or teacher's residence, payment of interest on the loan, or rent, insurance, &c., on the school buildings,	16,689 18 5			
Prises and premiums to Pupils,	11,402 9 10			
Heating, cleaning,* and other expenditure,	46,967 16 1			
	£127,956 9 7			

The local aid to the salaries of the teaching staffs amounted to £18,201 19s. 8d.

Day Schools in Operation: Attendance.

7. On the 31st of December, 1912, we had 8,255 schools in operation. During the year 1912, 69 schools were brought into operation—viz., 53 vested in the Commissioners or in trustees, and 16 non-vested. In 106 cases the grants were either suspended or withdrawn.

The accommodation afforded in the schools was sufficient for Accommodation 769,697 pupils, allowing ten square feet of floor space for each provided, pupil.

The classification of the schools (exclusive of Model, Convent, Monastery, and Workhouse schools) in respect of the number of rooms available for school purposes is as follows:—

Number of Schools with only one room,	4,739
" " two rooms, or a room and class-room	2,421
Number of schools with three or more rooms,	507

8. In addition to the schools in operation on the 31st December, 1912, 218 to which building grants had been made were not completely built, and 12 other schools were also inoperative for various reasons.

9. From the returns we have received, it appears that in 190 School schools, fees amounting to £3,086 3s. 8d. were charged to pupils fees, over 3 and under 15 years of age, and that all the other schools were free to such pupils. In 125 schools, fees amounting to £331 19s. 2d. were received from pupils over 15 years of age, and in 160 schools, fees amounting to £1,994 17s. 1d. were paid

* A payment of state grant in relief of the local expenditure for heating and cleaning of the schools was made during the year (see p. 32).

by the pupils for instruction outside school hours in special subjects.

Pupils on the Rolls. 10. (a.) The average number of pupils on the rolls of all the schools for the year was 699,353.

Average daily attendance. (b.) The average attendance of pupils for the year was 499,038.

(c.) The percentage of the average daily attendance of pupils to the average number on the rolls, was 71·3.

11. (a.) The average number of pupils over three and under fifteen years of age, the limits of age defined in the Act of 1892 sec. 18, sub-sec. (5), in daily attendance was 487,674. The total average attendance of those who were fifteen and above was 11,364, or 2·2 per cent. of the total number in average daily attendance.

Attendance for at least 75 days. (b.) The number of pupils over six and under fourteen years of age who made at least 75 attendances in the six months ended 30th June, 1912, was 354,490; and the corresponding number for the six months, ended 31st December, 1912, was 281,046.

Attendance in each of ten years. 12. The following table shows for the last ten years—(a) the number of national schools in operation, (b) the average number of pupils on the rolls, (c) the average daily attendance, and (d) the percentage of the latter to the average number on the rolls:—

Lay assistants. The teaching power in some convent schools is partly made up of lay assistants who, though not paid directly by us, are recognised under special conditions, and are granted valuable privileges in the matter of service, training, etc. On the 31st December, 1912, there were 523 lay assistants (of whom 374 were recognised lay assistants) in 144 convent schools.

The average number of pupils on the rolls of the convent and monastery national schools for the year was 113,855.

The average daily attendance at these schools for the year was 85,867.

The percentage of the average daily attendance of pupils to the average number on the rolls was 75·4.

WORKHOUSE SCHOOLS.

29. The number of workhouse schools in connection with our Board on 31st December, 1912, was 118, of which 114 were in operation.

The average number of pupils on the rolls of these workhouse schools during the year was 3,006, the total average daily attendance of pupils for the year was 2,617, and the average daily attendance of pupils of 3 to 15 years of age was 2,603.

ELEMENTARY EVENING SCHOOLS.

30. During the session 1912-13, 323 Elementary Evening Schools (including 12 Schools to which grants are payable under the alternative rules for Evening Schools in large urban centres) were in operation.

Detailed statistics in regard to these schools appear in the Appendix to this Report.

The subjects taught in these schools were as follows:—

During the financial year payments amounting to £8,806 2s. 5d. were made to the Evening Schools.

INDUSTRIAL SCHOOLS.

31. In 26 National Schools, pupils of Industrial Schools (certified under the Industrial Schools Act) were in attendance. The number of these pupils on the rolls on the last day of the year was 289 boys and 944 girls—total, 1,233; and the average daily attendance was for pupils of all ages 1,180, and for those of 3 to 15 years of age, 1,144. The industrial pupils attending school are instructed in the same manner as the ordinary day pupils; but payment for their instruction is not made by us, but by the Industrial Schools Department.

Teaching Power.

32. The teachers in our service on 31st December, 1912, receiving personal salaries were as follows:—

51. Colleges for the teaching of Irish.

A payment of £5 is made to special colleges for the teaching of Irish in respect of each teacher who, having attended the required number of lessons, passes the examination at the end of the course and who subsequently teaches Irish satisfactorily in a public school for one year. In order to facilitate their attendance at these courses, teachers are granted vacation to the extent of 50 days in the year in which they attend a course, provided their schools are kept open for at least 200 days in such year. Fifteen colleges have been recognised, and since they were opened, 1,393 of the students have been registered as qualified to teach Irish as an ordinary or extra subject.

The following Colleges have been recognised :—

Compulsory Attendance Provisions of the Irish Education Act, 1892.

52. At the end of the year 1912, 233 School Attendance Committees existed, 92 in Urban Districts and 141 in Rural Districts. According to reports received from the Committees, the provisions of the Act were enforced, during the year, by 227 of these Committees.

Under the provisions of the Act, children over 6 and under 14 with certain exceptions, are required to attend school, and to make 75 complete attendances in each half-year ending respectively the 30th June and the 31st December.

There are 38 towns having municipal government, to which the provisions of the Act apply, but for which school attendance committees have not been appointed. There are 111 Rural Districts without school attendance committees.

We give here a table showing, for the places with school attendance committees and for those without school attendance committees respectively, the average number of pupils on the rolls of the National Schools, the average daily attendance, and the percentage of the average daily attendance to the average number on the rolls:—

	PLACES WITH SCHOOL ATTENDANCE COMMITTEES.			PLACES WITHOUT SCHOOL ATTENDANCE COMMITTEES.

Merit Certificates.

56. 327 Merit Certificates were issued during the year to pupils over 13 years of age who had been enrolled in the Seventh Standard for one year, and who had, in the opinion of the inspectors, attained to considerable proficiency in English, Arithmetic, and Geography. The number of pupils enrolled in Seventh or higher Standard increased from 9,143 in 1904 to 22,167 at the end of the year 1912.

Half-time Pupils.

57. On the 31st December, 1912, there were 3,606 half-time pupils on the rolls of 141 schools. These schools, with the exception of one in Cork, are in the province of Ulster (Counties of Antrim, Armagh, Down, and Tyrone). The average daily attendance of half-time pupils in these schools during 1912 was 1,666.

Commissioners.

58. In the present year, Anthony Traill, Esq., LL.D., M.D., F.R.C.S.I., F.R.C.P.I., D.L., Provost of Trinity College, Dublin, resigned. We conveyed to Dr. Traill, the expression of our regret that he had found it necessary, owing to the state of his health, to resign his seat on the Board. Dr. Traill has been succeeded by the Rev. Robert Miller, M.A.

Statistics.

59. Attached hereto are statistics as to the schools and our financial statement for the year ended the 31st March, 1913.

60. We submit this, as our Report for the past year, to Your Excellency, and in testimony thereof have caused our seal to be hereunto affixed this 22nd day of October, 1913.
